INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. The Register also contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current Register volume year and a Sections Affected Index listing by Title each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume year. Both indices are action coded and are designed to aid the public in monitoring rules.

Rulemaking activity consists of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or peremptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State statute; and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies; is also published in the Register.

The Register is a weekly update to the *Illinois Administrative Code* (a compilation of the rules adopted by State agencies). The most recent edition of the Code along with the Register comprise the most current accounting of State agencies' rules.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5 ILCS 100/1-1 et seq.].

- Sections 8 and 8a of the Personnel ρλ Authorized Code (20 ILCS 415/8 and 8a). Statutory Authority: 4)
- A Complete Description of the Subjects and Issues Involved: In Section 310.Appendix A, Table AA NR-916 (Department of Natural Resources, as reflected in the Teamsters), the salary ranges are being increased text, effective January 16, 1999. 2

The salary ranges of the Maximum Security Institutions Schedule for July 1999 for the APSCME Collective Bargaining Units are being corrected. The Maximum Security Institutions shall receive a \$50 a month adjustment to the steps on July 1, 1999, in addition to the general wage increase. Also, in Section 310.Appendix A, Table W RC-062 (Technical Employees, AFSCME), the salary range of RC-062-24 is being included in the Maximum Security Institutions Schedule, effective July 1999.

- Will this proposed rule replace an emergency rule currently in effect? (9
- No Does this rulemaking contain an automatic repeal date? 7)
- Do these proposed amendments contain any incorporations by reference? No 8
- Are there any proposed amendments pending to this Part? 6

These amendments to the Pay Plan set out any guidelines that are to be followed by local or other to the Personnel Code and do pertain only to State employees subject Statewide Objectives: Statement of 10)

ENVIRONMENTAL PROTECTION AGENCY

NOTICE OF PROPOSED AMENDMENTS

Heading of the Part: Alternate Fuels Program

Code Citation: 35 Ill. Adm. Code 275

2)

- Proposed Action: Amend Section Numbers: 275.100
 - Amend Amend Amend 275.140 275.230 275.120
- Sections 15 and 30 of the Alternate Fuels Act Amend 275.240

Statutory Authority: ILCS 120/15 and 30]

4)

A Complete Description of the Subjects and Issues Involved: Section 15 of rules implementing the Alternate Fuels Rebate Program. The proposed amendments are necessitated by the passage of Public Act 90-726 and Public Act 90-797, which were both enacted last year. Both Acts make several minor changes to the Alternate Fuels Rebate Program. Two definitions are the Alternate Fuels Act originally required the Illinois EPA to adopt clarified and the program is extended through 2002. Further, to ease the application process, the deadline is extended for owners of alternate fuel vehicles who incur costs in December. The rules currently require applications to be received by the end of the calendar year during which costs were incurred; however, the proposed amendments would allow applications to be submitted by January 31 when the costs were .ncurred in December.

- Will this proposed rule replace an emergency rule currently in effect?
- Does this rulemaking contain an automatic repeal date?
- Does this proposed amendment contain incorporations by reference? Yes 8
- Are there any other proposed amendments pending on this Part? No
- required by the Alternate Fuels Act and do not create or enlarge a State Statement of Statewide Policy Objective: These proposed amendments are mandate as defined in Section 3(b) of the State Mandates Act 805/3(b)]. 10)
- accept written public comment on this proposal for a period of 45 days Time, Place, and Manner in which interested persons may comment on this The Illinois Environmental Protection Agency will after the date of publication in the Illinois Register. Comments should reference the Alternate Fuels Rebate Program and be addressed to: proposed rulemaking: 11)

During this period, USEPA amended its regulations as follows: which is available from the address specified in number detailed description of this regulation can be

Federal Action

Summary

(63 Fed. Req. 39443) July 22, 1998

Amendment to Pretreatment Standards and New Organic Chemicals Manufacturing Industry. The USEPA amended its pretreatment standards and new source performance standards for the organic pesticide chemicals manufacturing industry. The new standards increase the daily maximum and monthly average emission levels of the pesticide active ingredient (PAI) pendimethalin, based on actual industry monitoring data of the effluent concentrations of PAIs in wastewaters treated by full-scale Source Performance Standards for the Pesticide

> (63 Fed. Reg. 50388) September 21, 1998

reatment systems.

the Amendments to the Pharmaceutical Manufacturing Category Pretreatment Standards and New Source Performance Standards. The USEPA amended its pollutants .nto publicly owned treatment works (POTWs) by existing and new pharmaceutical manufacturing facilities. This federal action revises the "Chemical and "Mixing, Compounding, and eliminates the "Research" sub-category for for limitations of the discharge of standards "Extraction", sub-categories existing and new sources. and 'Fermentation", Formulating" Limitations Synthesis",

LLINOIS REGISTER

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

The USEPA revised the effluent limitations technology currently available for the "Rain Revisions to Rain Mills Point Source Category. guidelines for the best practicable control Mills Point Source" category. (63 Fed. Reg. 64417) November 20, 1998

Additionally, this proposal incorporates one federal action taken after the above-stated time period:

Summary Federal Action

(64 Fed. Reg. 10391) March 4, 1999

Performance Standards. This action corrects typographical errors and errors in rounding of adopted in the September 21, 1998 action Corrections to Pharmaceutical Manufacturing Category Pretreatment Standards and New Source which several numerical limitations summarized above. Specifically, the segment of the amendments involved in Part 310 updates pharmaceutical manufacturing category of the wastewater pretreatment rules. the ç and standards applicable limitations

Environmental Protection Act [415 ILCS 5/13.3] provides that Section 5 of the Administrative Procedure Act [5 ILCS 100/5-35 and 5-40] does not apply. Because this rulemaking is not subject to Section 5 of the IAPA, it is not subject to first notice or to second of the notice review by JCAR. Section 13.3

During this period, USEPA amended its regulations as follows: A complete description of the subjects and issues involved: Federal Register during the period of July 1, 1998 through which is available from the address specified in number detailed description of this regulation can be found 2)

Federal Action

Summary

(63 Fed. Req. 39443)

July 22, 1998

USEPA amended its pretreatment standards daily maximum and monthly average emission Amendments to Pretreatment Standards and New Source Performance Standards for the Organic and new source performance standards for the organic pesticide chemicals manufacturing The new standards increase the levels of the pesticide active ingredient (PAI) pendimethalin, based on actual industry monitoring data of the effluent concentration in wastewaters treated by full-scale Pesticide Chemicals Manufacturing Industry. industry. of PAIS

(63 Fed. Req. 50388) September 21, 1998

treatment systems.

limitations of the discharge of pollutants Amendments to the Pharmaceutical Manufacturing Category Pretreatment Standards and New Source Performance Standards. The USEPA amended its into publicly owned treatment works (POTWs) by existing and new pharmaceutical manufacturing facilities. This federal action revises the

LLINOIS REGISTER

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

and also for "Chemical "Research" sub-category Synthesis", and "Mixing, Compounding, for "Extraction", standards sub-categories existing and new sources. and "Fermentation", eliminates the Formulating" limitations

The USEPA revised the effluent limitations guidelines for the best practicable control Revisions to Rain Mills Point Source Category. technology currently available for Mills Point Source" category. (63 Fed. Reg. 64417) November 20, 1998

Additionally, this proposal incorporates one federal action taken after the above-stated time period:

Summary Federal Action

Corrections to Pharmaceutical Manufacturing Category Pretreatment Standards and New Source Performance Standards. This action corrects typographical errors and errors in rounding of numerical limitations which were in the September 21, 1998 action adopted (64 Fed. Reg. 10391) March 4, 1999

Specifically, the segment of the amendments involved in Part 307 updates limitations and standards applicable to the pesticide chemical of pharmaceutical manufacturing categories vastewater pretreatment rules. manufacturing and the

summarized above.

provides that Section 5 of the Administrative Procedure Act [5 ILCS Section 13.3 of the Environmental Protection Act [415 ILCS 5/13.3] 100/5-35 and 5-40] does not apply. Because this rulemaking is not subject Section 5 of the IAPA, it is not subject to first notice or to second notice review by JCAR.

- Will these proposed rules replace emergency rules currently in effect? No (9
- Does this rulemaking contain an automatic repeal date? 7
- Adm. Code 307.4900 through 307.4904 and Yes. Do these proposed amendments contain incorporations by reference? 111. 35 in See incorporations 307.6501. 8
- 8 Are there any other amendments pending on this Part? 6
- imposes Statement of statewide policy objectives: This rulemaking 10)

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

Heading of the Part: Medical Assistance Programs

7

- Code Citation: 89 Ill. Adm. Code 120
- Proposed Action: Section Numbers:
- Amendment
- Section 12-13 of the Illinois Public Aid Code (305 Complete Description of the Subjects and Issues Involved: These Statutory Authority: ILCS 5/12-13) 4) 2
- policy provides that the purchase of an annuity by an institutionalized person is subject to the asset transfer provisions. To determine if the transfer is allowable, the lump sum premium amount is compared to the to the Department's rules concerning medical assistance expected monthly return on the annuity along with the life expectancy eligibility add an additional provision on allowable transfers.

pay only very small monthly amounts until the final month of life expectancy when a balloon payment reflecting the payout balance is made. Such annuity plans are intended to primarily benefit the person's heirs. policy, they are in conflict with the intent of asset consideration for the purpose of The Department has become aware that the marketing of Medicaid planning devices sometimes includes plans offering back-end loaded annuities that The amendments address this problem by requiring that annuity While these annuities are literally consistent with current equitable medical assistance eligibility determination. senefits are made in approximately equal periodic amounts.

These proposed amendments are not expected to result in any additional expenditures.

- currently Will these proposed amendments replace emergency amendments effect? (9
- Does this rulemaking contain an automatic repeal date?
- No Do these proposed amendments contain incorporations by reference?
- Are there any other proposed amendments pending on this Part?
- Statement of Statewide Policy Objectives: These proposed amendments do not affect units of local government, 10)
- Time, Place, and Manner in Which Interested Persons May Comment on this <u>Proposed Rulemaking:</u> Any interested parties may submit comments, data, views, or arguments concerning this proposed rulemaking. All comments 11)

SUBPART A: GENERAL PROVISIONS

Section 113.1 Description of the Assistance Program

The Aid to the Aged, Blind, or Disabled program provides Financial assistance, medical assistance and social services to individuals who have been determined to be aged, blind or disabled as defined by the Social Security Administration. Financial aid is available under this program only for persons who are receiving Supplemental Security Incomes (SSI) to who have been found ineligible for SSI on the basis of income and who meet all other eligibility standards. In addition, non-citizens age 65 or older who meet the citizenship requirements of 89 III, Adm. Code 133.10, were legally present in the United States on Administration are eligible even if they do not teceive SSI.

Section 331.30 Definitiors

The following definitions are applicable for use in this Part only. Additional definitions for use in this Part are located in 32 Ill. Adm. Code 310.20.

NOTICE OF ADOPTED AMENDMENTS

"Application" means a request filed with the Department for a license, amendment, amendment to terminate a license, renewal, sealed source or device evaluation, amendment to a sealed source or device evaluation or an avermetion granted by the Department pursuant to 32 Ill. Adm.

"Amendment" means a modification in the license document that reflects changes to a radiation safety program or modifications to a sealed source or deviluation.

"Anniversary date" means the last day of the month for each year the license is in effect, that corresponds to the last day of the month in which the license expires.

AGENCY NOTE: For purposes of this Part, the 28th will be considered the last day of the month of February.

"Category I irradiator" means a gamma irradiator in which the sealed source is completely contained in a dry container constructed of solid material, the sealed source is shielded at all times, and human access to the sealed source and the volume undergoing irradiation is not physically possible because of the design of the irradiator.

"Category II irradiator" means a controlled human access gamma irradiator in which the sealed source is contained in a dry container constructed of solid materials, is fully shielded when not in use and is exposed within a radiation volume that is maintained inaccessible during use by an entry control system.

"Category III irradiator" means a gamma irradiator in which the sealed source is contained in a storage pool (usually containing water), the sealed source is shielded at all times, and human access to the sealed source and the volume undergoing irradiation is physically restricted in its design configuration and proper mode of use.

"Category IV irradiator" means a controlled human access gamma irradiator in which the sealed source is contained in a storage pool (usually containing water), is fully shielded when not in use and is exposed within a radiation volume that is maintained inaccessible during use by an entry control system.

"Confirmatory environmental monitoring" means those surveys conducted by the Department either to establish whether the licensee has complied with the concentrations and exposure limits or dose limits specified in 32 Ill. Adm. Code 332, 340, 601 or 606, or to provide data to evaluate potential health and environmental impacts resulting from licensed activities.

DEPARTMENT OF NICLEAR SAFFTY

ILLINOIS REGISTER

NOTICE OF ADOPTED AMENDMENTS

"Custom sealed source or device evaluation" means a document issued by the Department for either a sealed source or a device containing radioactive material, built to the unique specifications for use at the site specified in the evaluation.

"Dispensing" means to remove aliquots of radioactive material from bulk stock and distribute portions to another licensee or to a person exempt from licensure.

"Distribution" means the transfer of radioactive material to three or more licensees or persons exempt from licensure pursuant to 32 Ill. Adm. Code 330 or 332. "Educational institution" means a non-profit organization which has as its primary purpose the advancement of knowledge in one or more specific fields and which is accredited by the North Central Association of Colleges and Schools or equivalent. "Generally licensed devices" means x-ray fluorescence analyzers, gas chromatographs and gauges containing sealed sources in quantities equal to or greater than 37 MBq (lmCi) of radioactive material possessed by persons licensed pursuant to 32 III. Adm. Code 330.220(b).

AGENCY NOTE: Although general licensees are required to register with the Department (32 Ill. Adm. Code 320.10), only general licensees possessing the types of devices with quantities of radioactive material defined above are required to pay fees as specified in this Part.

"Generally licensed kits" means radioactive material possessed by persons licensed pursuant to 32 111. Adm. Code 330.220(f) for in vitro clinical or laboratory testing.

"Manufacture" means the dispensing or processing of radioactive material as sealed sources into devices.

"Materials license" means a radioactive material license issued pursuant to 32 Ill. Adm. Code 330, 332 or 601.

"Permanent jobsite" means any location where licensed material is stored or used for more than 180 days during any consecutive 12

"Primary material use category" means the category described in Appendix E of this part that corresponds to the category of use of radioactive material with the highest fee, either authorized by the

NOTICE OF ADOPTED AMENDMENTS

license or requested by the applicant.

"processing" means the preparation, manipulation or conversion of radioactive material.

"Remote site" means any permanent jobsite that is located in an area that is not contiguous to the primary use location.

"Sealed source or device evaluation" means a document issued by the Department, the Notlear Regulatory Commission, an Agreement State or a Licensing State, indicating that the sealed source or device specified on the document has been evaluated for distribution.

"Temporary jobsite" means any location where licensed material is used or stored for 180 days or less during any consecutive 12 months.

"Treatment" means any method, technique or process, including storage for radioactive decay, designed to change the physical. Othemical or biological Characteristics or composition of any waste in order to render the waste safer for transport, storage or disposal, amenable to recovery, convertible to another usable material or reduced in volume. RESEARCH AND DEVELOPMENT

203A.

- #ype-A Broad Scope Research and Development licenses (as specified in 32 Ill. Adm. Code 330.270) for possession and use of radioactive material for research and development that do not authorize commercial distribution.
- 203B. Other Research and Development licenses for possession and use of radioactive material for research and development that do not authorize commercial distribution.

AGENCY NOTE: The Department will allow the non-commercial distribution of material to other licensees for the purpose of collaborative research and development.

PORTABLE AND FIXED GAUGES

204A. Gas Chromatographs and Fixed X-Ray Fluorescence Analyzers - Specific licenses for possession and use of radioctive material in scaled sources for use in gas

chromatographs or fixed x-ray fluorescence analyzers.

- 204B. Portable Gauges and Portable K-Ray Fluorescence Analyzers specific licenses for possession and use of radioactive material as sealed sources for use in portable gauges or x-ray fluorescence analyzers.
- 204C. Fixed Gauges specific licenses for possession and use of radioactive material as sealed sources for use in fixed gauges.

SERVICE

205A.

- Service licenses that authorize services for other percons, including, but not limited to, testing of sealed sources for leakage or contamination, instrument calibration and sample analysis, but not including waste disposal transportation or radioactive waste broker services.
- Nuclear Laundries licenses for commercial collection and laundering of items contaminated with radioactive material.

205B.

205C. Decontamination Facilities - licenses that authorize receipt of items contaminated with radioactive material for the purpose of decontaminating such items.

WIRELINE (Well-Logging)

DEPARTMENT OF NUCLEAR SAFETY

ILLINOIS REGISTER

NOTICE OF ADOPTED AMENDMENTS

Wireline Service Operations (as defined in 32 Ill. Adm. Code 351) - licenses specifically authorizing use of radioactive material for wireline services, well surveys and tracer

INDUSTRIAL RADIOGRAPHY

207.

studies.

206.

Industrial Radiography (as defined in 32 III. Adm. Code 350) - licenses specifically authorizing use of radioactive material for industrial radiography at permanent or temporary iobsites.

MEDICAL/VETERINARY

208A.

- Type-A Broad Scope Medical/Veterinary Use Broad Type-A-broad scope licenses (as specified in 32 Ill. Adm. Code 330.270) authorizing diagnostic and/or therapeutic veterinary or human use of radioactive material. These licenses may include research and development, or use of radioactive material in sealed sources contained in teletherapy or high dose rate rence afterloader devices.
- Medical/Veterinary Use Including Teletherapy and/or High Dose Rate Remote Afterloader licenses for diagnostic and/or therapeutic human or veterinary use of radioactive material that include authorization for possession and use of radioactive material as sealed sources contained in teletherapy or high dose rate remote afterloader devices for medical or veterinary use and for the irradiation of other items.

208B.

AGENCY NOTE: Possession of a teletherapy unit that is out of service and in storage only does not means the primary radioactive material use category is the teletherapy category described in 208B. Such licensees should review the other categories to determine their primary radioactive material use category. If this is the only material possessed under a specific license, then see category 212A.

Medical/Veterinary Use - licenses for diagnostic and/or therapeutic human or veterinary use of radioactive material.

208C.

Diagnostic Use Only - licenses restricted to only the diagnostic human or veterinary use of radioactive material for uptake, dilution, excretion, imaging or localization studies, scaled sources for diagnosis; and in vitro kits, except as specified in 32 Ill. Adm. Code 330,220(f).

NOTICE OF ADOPTED AMENDMENTS

Limited Medical/Veterinary Use - licenses restricted to only the human or veterinary use of radioactive material for uptake, dilution and excretion studies.

208E.

208F. Mobile Nuclear Medicine - licenses authorizing the use of radioactive material for diagnostic or therapeutic human or veterinary use at temporary jobsites.

REGISTRANTS (GENERAL LICENSES)

209A. General Licenses for Rits - radioactive material (as specified in 32 III. Adm. code 330.220(f)) for certain in vitro clinical or laboratory testing.

211C.

Facilities with Generally Licensed Devices - facilities registered with the Department to possess or use radioactive material (as specified in 32 111. Adm. Code 330.220(b)), except for material contained in devices designed and manufactured for the purpose of producing light, and material in the form of sealed sources used in devices with a maximum activity less than or equal to 37 MBq (1 mči).

209B.

SOURCE MATERIAL

210A.

- Possession and Use of Source Material (as defined in 32 III. Adm. Code 310.20) and Byproduct Material (as defined in 32 III. Adm. Code 312.20) licenses for possession and use of source material in recovery operations such as milling, in-situ leaching, hear-leaching, ore buying stations, ion exchange facilities and in processing of ores containing source material for extraction of metals other than urainum or thorium, including licenses authorizing the possession of byproduct waste material (tailings) from source material recovery operations as well as licenses authorizing the possession and maintenance of a facility in a standby mode.
- Possession and Use of Source Material (as defined in 32 III.
 Adm. Code 310.20) licenses for possession and use of source
 material that require a specific radioactive materials license.
 This does not include licenses authorizing manufacture and
 distribution of source material, nor does it include specific
 licenses authorizing source material used for shielding or
 source material authorized for use in manufacturing operations
 as described in Material Use Categories 201A, B and C of this
 Section

- 13) Will the rulemaking replace an emergency rule currently in effect? No
- 14) Are there any other amendments pending on this Part?
- 15) Summary and Purpose of Rules:

The existing mobile home tiedown rules establish the requirements for the approval of tiedown equipment and the minimum number and type of ties

NOTICE OF ADOPTED AMENDMENTS

required for the installation of mobile homes. The proposed amendments will address recent problems with the requirements for proper installation of equipment.

in Illinois. The provision required manufacturers to rule change was adopted that they would have difficulty in meeting two of the new approval criteria. The specific provisions that have been problematic require that the (tiedown) anchor head shall be allowed to At the beginning of 1998, the Department filed emergency amendments to the dowever, manufacturers of tiedown equipment indicated after the earlier move no more than two inches horizontally and vertically, whereas previously the anchor head was allowed to move four inches in the horizontal direction. The 1997 rule change also required that double headed anchors resist the vertical and horizontal loads simultaneously. Concern has been expressed to the Department by manufacturers of tiedown equipment that the necessary additional length and size of the ground for the anchors to intrude into water lines, sewers and electrical lines Mobile Home Tiedown Code to extend for another year the effective date of a provision in the rules that voided all manufacturer approvals to sell rules in 1997. anchors needed to meet the new specifications would increase the obtain approval under new approval criteria added to the during installation. tiedown equipment

Since the emergency rules were adopted, the Department has met with manufacturers and developed approval criteria that is acceptable to the Department and can be met by the manufacturers. These acceptable specifications are adopted in this rulemaking.

16) Information and questions regarding these adopted rules shall be directed
